

Sistema d'illuminazione lineare a passo regolare. Montando varie FLAT in successione la distanza tra i led rimane sempre la stessa. Corpo interamente in alluminio anodizzato. Ideale per l'illuminazione di pareti, di vetrine e di teche. E' possibile realizzarle anche in dimensioni diverse da quelle standard.

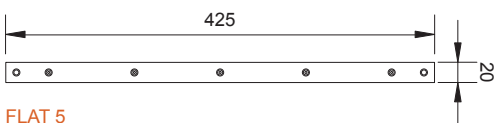

Linear illuminating system. The leds are always at the same distance, even when mounting many FLAT one near the other. Completely in anodized aluminium. Perfect for walls, window sets and museum cabinets. It is possible to produce them even in other dimensions.
